RE: Proposed Modification to UII Agreement

In accordance with Appendix I, Section V, of the UIIA, all participants are hereby notified of a proposed modification approved by the Intermodal Interchange Executive Committee (IIEC) during its meeting held on February 2, 2023. The proposed revision is to the Administrative Procedures of the UIIA, Section II. Review Procedures for New or Revised EP Addenda, Item II.A. and clarifies that should an EP addendum revision decrease the economic impact on the Motor Carrier and in turn result in a benefit to the Motor Carrier, the EP requesting the revision may elect to have the change become effective earlier than the normal thirty-day effective date. The proposed modification to Section II. Review Procedures for New or Revised EP Addenda, Item II.A. is shown below for your reference:

Administrative Procedures, Section II. Review Procedures for New or Revised EP Addenda, Item II.A.
[Revisions shown in “red”]

“A new or existing Provider shall submit Addendum language to the Chairperson of the Committee. Addendum language that only modifies an existing economic term becomes effective without review no less than thirty (30) days from the date when notification of the new or revised Addendum language is provided to the Motor Carrier except that, if the modification decreases the economic impact on the Motor Carrier, the modification may be effective earlier at the Provider’s election. Within ten (10) business days after receipt of any other new or revised Addendum language, the Chairperson shall forward, through e-mail, a copy of the proposed Addendum language and an initial evaluation by IANA staff of the conformance of such language with the Agreement to Committee members representing the affected mode(s). Any economic terms shall be deleted from the Addendum before forwarding to the Committee members.”

Comments are welcome and may be submitted over the next 30 days and should be in writing, via e-mail to debbie.sasko@intermodal.org or by USPS to the address shown below. **All comment submissions on the proposed revisions must be received by Monday, March 13, 2023, in order to be considered.** The effective date of these revisions will not be before April 3, 2023.
