

Overview of IANA's Driver Vehicle Examination Report Service (DVER)

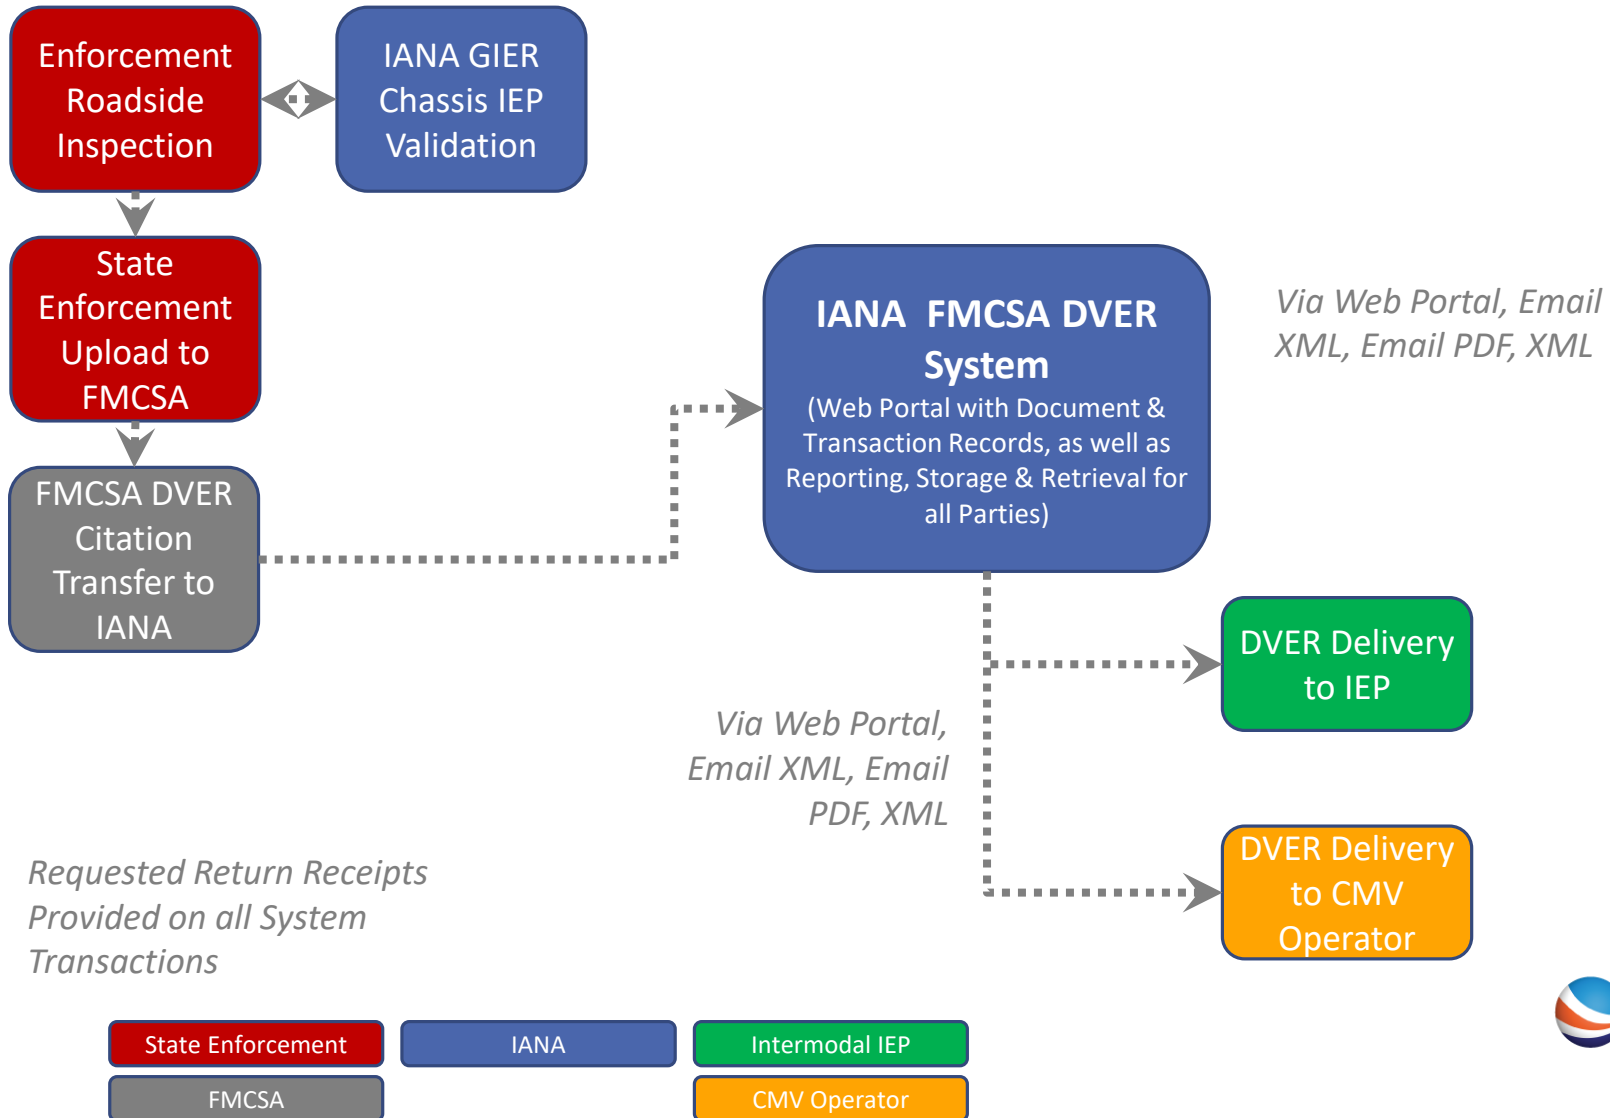

DVER System – Purpose

- Provide Intermodal Equipment Providers (IEPs) and Motor Carriers (MC) with notification that a Driver Vehicle Examination Report (DVER) has been issued for intermodal equipment.
- Sends violation detail via XML, as well as e-mail PDF delivery to all relevant parties.
- API available for system integrations.
- Gives ongoing web portal access for DVER management, storage, lookups and retrieval.

Why is the system needed?

- Overall costly administration of manual “paper-like” processes for CMV operators.
- **Intermodal Drivers are required to supply a copy of the citation to the MC and IEP.** The intent of the regulation, per FMCSR 396.9 (d)(1), is that this should ideally occur within **24 hours of receipt**. However, this process has proved operationally difficult.
- **Within 15 days** following the date of the inspection, the **MC or IEP must physically certify on the form that all violations have been corrected, return a copy of the form to the issuing agency at the address on the form, and retain a copy for 12 months.** IEPs are finding it difficult to meet this timeline due to inefficient paper based processes.
- Validation of potentially inaccurate IEP identification on the DVER.

DVER Web Portal Features and Functionalities

- **Search Capabilities**

The Search DVER Screen will be the default page that users are taken to once they log in. This screen identifies the parameters that can be utilized to search for a DVER –

Search Parameters include:

- **Inspection Date**
- **SCAC Code**
- **US DOT Number**
- **State – the state in which the citation was given.**
- **DVER Report Number – unique number assigned to each DVER.**
- **Equipment alpha/numeric ID**
- **License Plate/License State**
- **VIN Number**

DVER Web Portal Features and Functionalities

- **Search Parameters**

The Search DVER Result Screen will return DVER information related to the user's company's based on search parameters entered.

The screenshot displays the 'Search DVER' interface. On the left is a dark blue sidebar with navigation options: 'Rejected DVER's', 'User Listing', 'DVER Search' (highlighted), and 'User Settings'. The main content area is titled 'Search DVER' and contains two columns of search criteria. The left column includes: 'From Inspection Date' (with a date format hint), 'MC SCAC', 'IEP SCAC', 'STATE ABBR' (with a hint to enter 'US' for federal inspections), 'License Plate', 'Equipment Prefix', and 'VIN'. The right column includes: 'To Inspection Date' (with a date format hint), 'MC DOT', 'IEP DOT', 'DVER Report Number' (with an example 'e.g. MA-4744-0001 / US-IMP100025'), 'License State', and 'Equipment Number'. At the bottom of the form are two green buttons: 'Search DVER' and 'Clear Search'.

DVER Search Results

•Result screen will return DVER information related to the User's company based on Search parameters entered.

•Keys for reading Results Screen:

- A. **1st Excel Button** - Download Excel spreadsheet with information on DVERs that are checked by User.
- B. **2nd Excel Button** - Download Excel report on **All DVERs** on file for User.
- C. **3rd Excel Button** - Download all XML details on **ALL DVERs** on file for User.
- D. **PDF Button** – generates a PDF file containing copies of the actual DVERs for any selected DVERs checked by User.
- E. **Binocular Icon** – another method to get back to the DVER Search Screen.

DVER Result screen contains the following information:

- A. Check/Uncheck Feature – allows User to select all DVER transactions on page. The words Check/Uncheck act as a toggle button. Clicking on the word CHECK will check all selections on page, and UNCHECK will uncheck the selection. Checkboxes next to each transaction can also be checked.
- B. Date/Time of Inspection
- C. IEP DOT Number – displays the IEP DOT No. that DVER is associated with.
- D. MC DOT Number – displays the MC DOT No. that DVER is associated with.
- E. Unique DVER Report Number – Each DVER will have a unique report number. First two digits will be the two letter state abbreviation where roadside inspection occurred. Example: CA10010-1.
- F. State/Federal – identifies State where DVER was given.
- G. Report Version – Specific Version of the DVER. Occasionally there are times when a DVER is revised. If a DVER is modified, this number will change each time the DVER is revised.
- H. Download DVER – allows user to download the actual DVER in PDF format.
- I. IEP DVER Contact Details – provides a link to the DVER Designated Contact for the IEP associated with the DVER. Link only appears if the user logged in is a MC.
