Motor Carrier Resources

Finding Work Once Setup in the UIIA:

IANA does not find work for trucking companies, it simply sets up the interchange agreement for the trucking company so that they can do business with the equipment providers they want to do business with. Once the Motor Carrier has their UIIA Agreement setup, to follow are some resources that they can use when searching for work:

- Contact UIIA Equipment Providers directly and advise them that your company is an active Motor Carrier participant in the UIIA and that you are in search of work. UIIA EP Contact List can be found at UIIA EP Corporate Contacts.
- Check load boards that publish available equipment moves such as Loadmatch.com (www.loadmatch.com).
- Check out the following additional resources on the IANA website:
  - **List of 3PL Logistics Members** – a list of third party logistics companies that are IANA members is available at **3PL IANA Member Companies.** You can click on the company name to go to their specific website.
  - **Intermodal Marketplace** – You can browse by category for Motor Carriers. You can get to the Intermodal Marketplace at http://intermodalmarketplace.com/.
- IANA's website also has an Intermodal Resource Center that may have information that you will find helpful. This information is found at https://www.intermodal.org/resource-center.
